

AlfaES

19th of November 2025

Dear Marina Alexandrovna,

On behalf of Alfa ES, it is a great honor to congratulate the International Institute of Distance Education on the celebration of its 25th Anniversary.

This milestone is not only a reflection of time but also a testament to the remarkable journey your institution has undertaken. Over the past twenty-five years, MIDO has consistently demonstrated vision, resilience, and innovation in the field of education. By embracing modern technologies and pioneering new approaches, you have created an environment where knowledge is accessible to all, regardless of geographical boundaries.

Your achievements are significant not only for your students and faculty but also for the broader academic community. The programs you have developed, the partnerships you have fostered, and the international collaborations you have initiated have contributed to the advancement of education and the strengthening of global ties. We admire the way your institution has become a hub of intellectual exchange, preparing professionals who are capable of addressing the challenges of a rapidly changing world.

As you celebrate this important anniversary, we extend our heartfelt wishes for continued success. May the coming years bring new opportunities for growth, bold initiatives, and enduring recognition of your leadership in distance education. We look forward to seeing MIDO expand its horizons, deepen its impact, and inspire future generations of learners.

With sincere respect and best wishes

Thank You

Dr. Bhathiya KARUNARATHNE M.D.
